Engine Model Number The model number of a Honda engine is printed on a sticker located on the engine cover or recoil assembly housing. All Honda engines model numbers start with "G", such as "G100", "GX610", or "GXV160". For some engines, you may also need to locate the serial number, which is normally stamped on the side of the engine.

Honda Model Number and Serial Number Locator

Honda VIN numbers add an extra level of accuracy to engine parts matching. Using both the engine's model and VIN numbers when finding parts for your engine guarantees a match. Unlike their model numbers, Honda engine VIN numbers can be just a bit harder to find and read. A Honda engine's VIN number is stamped somewhere on the engine.
