Finally learned C and C++ entirely on my own, and fell in love with C++, still in love! Began with Turbo C 2.0/3.0, then to VC6 for 4 years! Finally on VC2008/2010. I enjoy programming, mostly the system programming, but the UI is always on top of MFC! Quite experienced on other environments and platforms, but I prefer Visual C++.

An Idiot's Guide to C++ Templates - Part 2 - CodeProject

A C++ program is a text file containing a sequence of C++ commands put together according to the laws of C++ grammar. This text file is known as the source file . A C++ source file carries the extension .CPP just as a Microsoft Word file ends in .DOC or an MS-DOS batch file ends in .BAT. The concept extension .CPP is just a convention, but it ...
