I have a Mercedes OM 904 LA engine powering a Atlas Copco air compressor. As long as I have owned it (6 years) it has had a problem with taking a long time cranking before it actually starts. This cranking may take anything from 10 seconds when already warmed up and just shut down after running for an hour, to 30 seconds when starting from cold.

I have a Mercedes OM 904 LA engine powering a Atlas Copco ...

The unit pumps sit directly in the crankcase and are driven by the camshaft. The engine is equipped with exhaust gas turbocharger and intercooler as standard. The engine can be equipped with optional engine brakes (brake valve and constant throttle valves). It is a low-emission engine.
