Almost every Miata will eventually develop windows that are difficult to wind up and down or travel very slowly if they are power windows. The usual fix is to remove the door panel and spray the cables and rollers with white lithium grease. This often completely fixes the problem, however some people report it helping very little or not at all.

There should be a copy of this in the trunk of every 1.6 liter Miata. Much more user friendly than the "official Mazda" book, the Enthusiast's Shop Manual is well illustrated and clear. The idea of an enthusiast's manual is a good one -- the book's written for the skilled and involved owner, not for the professional mechanic.
