<i> Introduction</i>. Requirements for Patient Safety suggest that students encounter patients well prepared. In clinical laboratory practice (CLP), the students simulate patient situations as a preparation for internship. Various CLP models have been tried out to meet the students's prerequisites and learning strategies. Objectives</i>. The purpose of this study was to try out two ...

Training Nursing Skills: A Quantitative Study of Nursing ...

The home, in fact, was the center of health care, and for the first two centuries after European exploration of North America, all nursing was home nursing. Even when the nation's first hospital began in Philadelphia in 1751, it was thought of primarily as an asylum or poorhouse; another century or more would pass before the public viewed ...
