A good technical report presents data and analysis on a specified topic in a clear, highly-organized, and effective manner. Before you begin writing, define your message and audience, and make an outline. Then, write the main body of the report and surround it with the other necessary sections, according to your chosen layout. Part 1

Technical report writing today (Book, 2014) [WorldCat.org]

Daniel G. Riordan (2005), in Technical Report Writing Today, cites Dombrowski to define three threads of ethics: One major thread is that the communicator must be a good person who cares for the audience. Communicators must tell the truth as convincingly as possible, because truth will lead to the good of the audience.
