The Curse Of Bigness Antitrust

"Sweeping in scope, The Curse of Bigness is probably the best popular account of the history of American antitrust law and policy. It captures the stakes in the battle for antitrust—and it cuts to the heart of one of the central questions of our time: Can democracy survive?"--

The Curse of Bigness: Antitrust in the New Gilded Age: Wu ...

The history of monopoly in the US began as an "economics eugenics movement" targeting those seen as unfit to deserve industrial life, Tim Wu writes in The Curse of Bigness: Antitrust in the New Gilded Age. Wu's book, a history of monopoly power and public policy in America from the late 1800s onward, is particularly useful to revisit in this current age of tech firms, big pharma, and airline monopolies.

The Curse of Bigness: Antitrust in the New Gilded Age by ...

The Curse of Bigness. Antitrust in the New Gilded Age. From the man who coined the term "net neutrality," author of The Master Switch and The Attention Merchants, comes a warning about the dangers of excessive corporate and industrial concentration for our economic and political future. We live in an age of extreme corporate concentration, in which global industries are controlled by just a few giants firms—big banks, big pharma, and big tech, just to name a few.
