As Kryger shows, sleep is utterly essential to life, organically speaking, but the act of living our lives to the fullest, with all the attendant toils,

responsibilities, and worries, has probably...

The Secrets of Sleep | The New Yorker

Sleep is an opportunity for the conscious and sub-conscious minds to compare and share notes; to inform and enrich one another in their tasks of offering us the best quality of life. Left to their own devices they will do the best job that they can because the body, as an organism, is never working against itself.

The Secret of Sleep

Could the secret to long life be as simple as eating a healthy diet and getting eight hours of sleep every night? Yes, says Misao Okawa of Japan who recently celebrated her 116th birthday.
