Unifix cubes are one of my favorite math manipulatives for preschoolers. They help with counting, one to one correspondence, learning to count in tens and are always much loved by my children. I think the act of turning math into something active, that a child can use with her body makes it that much more fun to use.

**Unifix Cubes For Preschool Math - Fun with Mama**  
I set 6 flashcards out in front of my daughter with the unifix cubes. Since this was our first time doing this activity, I thought I would make it easy for her by having the correct number of cubes next to each flashcard... if I were to do it again I would make her find and count the cubes herself.

Then I got out a die and unifix cubes, and we sat down at the table. Our goal was to be the first to get to 20 blocks in two towers of ten. We took turns rolling the die so that we would know how many blocks to add to our towers. We built towers beginning at the bottom and going up. When a tower reached ten, we had to start again with the ...
