Waukesha Gas Engine Vhp Series

Some of the longest running engines in the field, Waukesha's VHP engines are designed and built with knowledge from a century of oil and gas and power generation industry experience. Now, the VHP Series Five provides even more power and performance for your most challenging and remote environments.

VHP Series Five Engine - INNIO

Waukesha VHP generator sets are built for efficiency, durability and longevity, and provide reliable power for continuous and intermittent power applications. News Resources Built for dependability, longevity and durability, VHP engines have been working in natural gas production applications for over 40 years.

VHP Engine - INNIO

Dependable, Long-Lasting, Versatile. The Waukesha Series Four rich-burn engines are the engines of choice for the harshest and most demanding gas compression, power generation and mechanical drive applications. The engines can reliably produce more power on hot field gases, at high altitudes, and in remote locations, all while delivering low emissions when paired with a 3-way catalyst (non-selective catalytic reduction).
