Wire Fence Solutions - Bekaert

The principle of every Gripple is simple; a one-way lock is created by a roller, which allows movement through the channel, but grips the wire as it moves back. Repeating this through another channel creates a join, securing the fence. This concept allows tension to be applied throughout the life of the wire.

Wire Fence Solutions

Simply push wires through the Gripple in each direction and the one-way grip firmly holds each wire. No more bending, twisting and tying wires. To tension both wires, use the Gripple Plus tensioning tool or Gripple contractor tensioning tool. Pack Size: 500 Also available in the Gripple Plus wire joiner range are two great packs.
